

***Adrift* | Guy Dickinson**

How many maps, in the descriptive or geographical sense, might be needed to deal exhaustively with a given space, to code and decode all its meanings and contents? It is doubtful whether a finite number can ever be given in answer to this sort of question. What we are most likely confronted with here is a sort of instant infinity.

Henri Lefebvre, The Production of Space, 1974

Roaming Room

5 Patwell Street, Bruton, Somerset, BA10 0EQ

28th November - 20th December, 2026

Friday, Saturday & Sunday / 2 - 6pm
